If you haven't heard from your child's teachers by Oct. 23rd either from the SPT conferences, email, or phone, we might not have accurate information for you. Please call the school to update your email address and/or phone number.

International Exchange Students Wanted

The Rotary Club of Prince Rupert is currently accepting applications for both of their 2025 short and long-term international exchange programs. The Short term exchange would occur in the summer of 2026 and the Long-term exchange would be for the 2026/27 school year. Any students interested in the exchange programs are asked to contact Bob Killbery at bbkillbery@citywest.ca

Some of the highlights from the last two weeks:

- During Truth and Reconciliation Week, both staff and students actively engaged in learning about the history and lasting impacts of residential schools. Together, they created a powerful gallery, showcasing not just the learning from this week but a commitment to ongoing education throughout the year. Monday, September 29th classes had the opportunity to observe, and participate in, performances with the Git Waas Student Drum Group and look at the gallery of student learning in the MPR.
- All of the Volleyball Teams have been busy travelling for playdays in other communities and have been playing well. Coming up we are hosting on October 11th (Jr. Boys), October 25th (Jr. Girls), October 25th (Sr. Boys), as well as October 25th Zone Championships for Cross-Country. Please come out and cheer on our teams!
- The Cross Country Team hosted a run on Sept. 27th and competed well on Oct. 4th in Terrace
- The Soccer Team hosted in on a beautiful sunny day and won one and lost one. Way to go Rainmakers!
- Mrs. Sawka's Grade 11 & 12 classes explored the Terrace campus of Coast Mountain College. They toured the university courses, trades programs, culinary arts, and Freida Diesing School of North Coast Art.
- CHSS Student Leadership hosted a very successful Extracurricular Fair to encourage students to join clubs and make connections with their peers. Clubs and extracurriculars that were represented include E-sports, GSA, Debate Team, Outdoor Club, Community Builders, Canadian Exchange Trip, Interact Club, and Medicine4Youth.

Parking lots

Just a reminder that the parking lot at the front entrance of the school is for staff, the Inclusive Education bus, and access for students with mobility issues, please do not drive into the main lot. Also, last year we had issues with families blocking the exit from the band room to Prince Rupert Blvd. Both of these situations have caused congestion, accidents, and unsafe conditions for both students and staff. We understand that it can be tough to find an appropriate space for pick up and drop off, we recommend using the lower parking lot by the track or on Prince Rupert Blvd.
